

April 7, 2018

Esteemed Councillors,

My name is Karen Hamilton. Having served as the Driftwood Hills Neighborhood Association president for the past 12 years and as an abutting property owner, I was happy to participate in the process of negotiating an agreement between Keystone Development and the Nora community. I brought an historical perspective and commitment to thoughtfully represent the needs and concerns of the Driftwood Hills neighborhood.

Considering the limited development options that we faced, I am confident that the efforts of the negotiating team have resulted in an agreement which is in the best interest of the neighborhood, the Nora community, and the city of Indianapolis.

I respectfully ask for the council to support Councilor, Colleen Fanning's efforts on our collective behalf, and approve the settlement before you. Thank you for your consideration.

Sincerely,
Karen Hamilton
