This report presents data from the CrimeView dataset of MECA run records where the CAD Run Code field contained the value "SHOT*" and does not necessarily mean shots were actually fired only that someone heard what they thought were shots and called 911. Records were selected geographically based on the Council 6 Voting District. Run data are preliminary, and information contained on this report should be used with care. NOTE: Motorola CAD was implemented on October 22, 2018 changing the format of the CAD number from a Julian date format to a YYMMDD format and adding the leading agency "IP"
